

Species List

The species collected in all Malaise traps are listed below. They are organized by group and are listed in the order of the 'Species Image Library'. 'New' refers to species that are brand new to our DNA barcode library. 'Rare' refers to species that were only collected in one trap out of all 67 that were deployed for the program. Please note that BINs (Barcode Index Numbers) are subject to updates - check your BOLD dataset for information on the specimens you collected.
