

The Biodiversity Seminar Series is pleased to announce

Jesús Orozco, PhD

from Curator of Insect Collection, Agricultural Sciences and Production,
Zamorano University

presenting the talk

“DNA barcoding as a tool for pest identification in Honduras”

Brief Bio:

Dr. Orozco is the curator of the Entomological Collection at the Escuela Agrícola Panamericana in Zamorano, Honduras. He obtained his PhD in Entomology from the University of Nebraska in 2011 working on a revision of the New World genus *Euphoria* (Scarabaeidae: Cetoniinae). He then worked in South Africa for two years as a postdoctoral researcher at Rhodes University and for one year at Sebastian Kolowa Memorial University in Tanzania. His research interests are focused on understanding insect diversity using tools from taxonomy, phylogenetics, biogeography, and ecology.

When: Wednesday March 8th, 2017 at 12:00 pm

Where: Visualization Theatre, Room 1009

Biodiversity Institute of Ontario
